**RE: Explosive Handling Wharf #2
Painting Assistance**

Dear Kelly:

Now that the dust has settled I wanted to thank C3 Industrial for the assistance that you provided in order that Sauer could complete the project for NAVFAC. Sauer determined that additional painters were required to complete the project and we discovered that there is not an abundance of qualified Painting Contractors in the industrial market. We reached out in several directions and were unsuccessful until we were referred to your Team.

C3 Industrial was able to complete badging and mobilization within a relatively short period of time and to provide Sauer with qualified workers who understood the project goals and who had the training and experience to perform the work. Your team assisted Sauer in meeting our deadline while performing the work in strict accordance with the stringent specification requirements.

The Work was completed using swing stages and boom lifts without C3 Industrial incurring any safety violations, which is a significant accomplishment at Submarine Base Kings Bay.

C3 Industrial's supervision along, with your attention to detail, helped Sauer meet our goal and for that we are appreciative of all of your efforts.

Good luck in the future and we hope to work with C3 Industrial on another project.

Sincerely,

SAUER INCORPORATED
